Project Ideas

Get Gsm based projects for electronics and communication research and studies. GPS based projects and ideas for remote latitude and longitude tracking. A gsm module is a system that uses a sim card to connect to cell phone networks for data passing. We have researched these GSM based projects ideas and topics to help electronics and communication students, researchers and enthusiasts learn about GSM based systems. Our GSM projects kits make use of GSM modem with microcontrollers for various purposes. Browse through our list of innovative gsm module based and GPS based project topics and ideas for engineering students, researchers and engineers:

GPS-GSM Projects

-
- Monthly Electricity Billing with Bill SMS Using PIC
- Combustible Gas Detection with GSM Alert Using PIC
- RFID Attendance System with SMS Notification
- Home Security using GSM
- DC Motor Speed Control Using GSM
- Drunk and Drive Alert Using SMS With Ignition Lock Project
- GSM Based Patient Health Monitoring Project
- Over Voltage Under Voltage Load Protection with GSM Alert
- GSM Based Home Automation
- Automated Water Pump with Dry Run Intimation using Gsm
- Gsm Based Weather Reporting
- GSM based Industry Protection System
- Automatic Unauthorized Parking Detector With SMS Notification To Owner
- Energy Management System With Programmable Numbers using GSM
- Fire and Gas Detection System With GSM Alert
- Gsm Based Door Unlocker system
- SMS Voting System Project
- GPS + GSM Based Advanced Vehicle Tracking System Project
- Monthly Electricity Billing Display With Bill SMS Feature
- Power Meter Reader Plus Load Control Using GSM

Project Ideas

- [SMS Controlled Railway Level Gate Control With Programmable Numbers](#)
- [Electronic Notice Board Controlled By Gsm](#)
- [Zigbee Based Gas Fire Detection System](#)
- [Motion Based GSM Messaging System For Patients](#)
- [Landmine Detection Robotic Vehicle With GPS Positioning Using ARM](#)
- [GPS Based Vehicle Tracking and Theft Detection System](#)
- [Soldier Health and Position Tracking System](#)
- [GPS Handcuffs With Geographic Prohibitions](#)
- [Womens Safety Device With GPS Tracking & Alerts](#)
- [Raspberry pi Based Wheelchair With Safety System](#)
